PUBLIC ADVERTISEMENTS

OFFICE OF THE PUBLICITY OFFICER TO THE GOVERNMENT OF MYSORE, PUBLIC OFFICES, BANGALORE.

Press Note.

Dated 1st September 1949.

In the Press Note dated 28th March 1949, Government announced that the Revenue Inspectors had been authorised to issue permits for hulling private paddy upto 5 pallas at a time subject to certain conditions. As it is apprehended that the powers vested in the Revenue Inspectors are likely to be misused in border areas and in the vicinity of large towns and industrial areas where inducements for smuggling and black-marketing exist, Government have authorised the Deputy Commissioners of Districts to with hold in their discretion the said powers given to the Revenue Inspectors.

(P. N. No. 76—3-9-1949—7601-7700).

Press Note.

Dated 2nd September 1949.

Government have noticed an article published in Pouravani dated the 30th August 1949 with regard to an electrical accident that occurred at Arsikere on the 24th August 1949, resulting in the death of a boy due to electrocution. The article alleges certain want of care on the part of the Electrical Department. For the information of the public, the following facts of the case are hereby published in order to remove any misunderstanding that may have been caused in this behalf The circumstances of the case are as follows :—

A private installation got grounded due to deterioration of the insulation of the wiring of the installation, thus energising the ground wire that was exposed outside the building. The boy that met with the fatal accident unfortunately placed his foot against this exposed ground wire and thus got electrocuted. Immediately the report was received, the Electrical Department took necessary action to disconnect the installation and advised the owner of the installation to get the defect rectified.

Thus it will be seen that the unfortunate accident has occurred not due to any defect in the electrical wiring belonging to the Department.

The article further alleges that there have been several groundings throughout the town for the last two months and they have caused considerable inconvenience to the public. This is far from the truth. The records maintained in Arsikere Sub-Section show that no complaints have been received so far regarding grounding or any inconvenience caused to the public and therefore the allegations made are without foundation.

The public are hereby assured that whenever defects are reported to the Department, prompt action is being taken and will be continued to be taken always to minimise the danger from leakages of current in the distribution system belon to the Department as early as practicable.

(P. N. No. 75—2-9-1949—7,501-7,600).

Press Note.

Dated 3rd September 1949.

Press Note.

The attention of Government has been drawn to certa statements alleged to have been made by some of t speakers at the Labour Conference held in Bangalore l week-end.

It is complained that minimum wages have not yet be fixed in Mysore. The public must be aware that the Minimu Wages Act was recently passed and Rules under the Act we framed and published only last week. A Minimum Wag Board for the Kolar Gold Fields area has been appointed a was awaiting the publication of the rules to begin its wor Separate Boards will be constituted for each industry ar area. The matter is being attended to with expedition ar there is no point in complaining as if the Government we idling.

It is asked "how can a man live on Rs. 15 or 20 month?". The lowest paid servant in any Governmer Department or Concern gets Rs. 27 a month. There are onl a few of them,—sweepers and scavengers—among whor more than one in each family work. Most among even th menial establishments get more than Rs. 30 a month. Amon industrial labourers the average basic pay is about 14 anna a day which, together with the D. A. which varies from Rs. to Rs. 30 a month, aggregates Rs. 30 and more per month. I is misleading to state that any employee is asked to live or Rs. 15 per month only.

Agricultural labourers are much worse off than industria labourers and there is a trek towards towns and cities which besides showing that conditions of industrial labour are more attractive—such as they are—is affecting prejudicially the out-put of agricultural produce. Government feel that there must be parity between agricultural labour and industrial labour, having due regard to the different environments in which each works ; and that the conditions of industrial labour is improving from day to day.

To say that workers will no longer tolerate, that the conditions are such as will cause shame and surprise and the like are calculated to incite the workers. It is reported that Shri

, Mehta stated that " while Governments are deceiving orkers, how can the workers have any mind to work ?". report is true, it is an extravagant statement far from and a direct incitement to the workers.

ially, civil liberties are alleged to have been violated. rnment are definitely of opinion that while individual y is valuable and Government are willing and anxious otect it, the security of the State and the maintenance w and order with a view to the preservation of peace and quillity is as valuable, if not even more so; and whenever ndividual threatens the latter he has to be prevented doing so. Civil liberties are not only protected but o who endanger and violate them are prevented from g so.

abourers have their best friends in the Government who doing and will do all they can to help them to improve conditions of life and work. Government have secured mber of legislative enactments passed within the last few s calculated to improve the conditions of labour. Apart the Labour Act and the Factories Act, they have got Payment of Wages Act, the Holidays with Pay Act, the teens Act, the Shops and Establishments Act, the loyees' Insurance Act, the Children's Act, the Minimum ges Act and the Labour Housing Act, all of which are g expeditiously enforced.

he Labour Act was found to be capable of improvement Government had a bill ready. It has been postponed at suggestion of the Dominion Government with a view to g about uniformity of law throughout India.

number of administrative measures have been taken on d. Labour Investigators and Labour Welfare Officers are ointed in every place to watch over and protect the erests of the workers. An independant Labour Secretariat been constituted with a full complement of Officers to nd to the welfare of labour. An Employment Exchange been established which is finding jobs for the unemployed d is increasingly becoming useful. A grant of Rs. 10 lakhs been made for Labour Housing and the City Improvement Trust Board, Bangalore, is building houses on approved terms for labourers in the Industrial area. The work will carried on all over the State. A Special Officer is being ointed to enquire into and report upon the conditions of men workers in the State. Inspectorates are being reased and Officers appointed to enforce all the rules and ulations for the benefit of workers. Assistant Commissioners of Labour are in charge of various divisions and daily in contact with workers suggesting to them and to Employers as also to the Government what is desirable each to do with a view to improving the conditions of life work of labourers all over the State.

The State is abreast of the latest movements in labour vancement and welfare and is enforcing all the conventions d recommendations of the International Labour Organization ratified and accepted by the Dominion Government.

It is needless for Government to point out that the misleading statements made at the Labour Conference are, to say least, unfounded and calculated to harm the cause of the rkers in the State.

(P. N. 73—81-8-1949—7,801-7, 402.)

Press Note.

Dated 7th September 1949.

Government have already indicated in their Press Note ted 3rd September 1949, the action taken to control and gulate the prices of sugar.

The Government of India are making immediate preliminary allotments out of the stocks of sugar seized, so as not to cause hardship by drying up of supplies in any province As result of recent action taken by Government, it is likely at there may be rush on shops by ordinary consumers to ay sugar beyond normal quantities and keep it against future ortage. There need be no apprehension as to shortage, as fficient stocks are available in Mysore.

Government are making suitable arrangements immediately for distribution of sugar at reasonable prices through ration depots and societies and consumers are requested not to purchase large quantities of sugar and thus play into the hands of profiteers.

The public are requested to co-operate with Government and buy sugar in only such small quantities as may be absolutely necessary.

(P. N. No. 79—7-9-1949—9,901-10.000)

Press Note.

Dated 7th September 1949.

The Chief Minister had called for a meeting of the Deputy Commissioners of the Districts on the 5th September 1949. One of the points discussed was the importance of insisting on proper attendance of officials at the Taluk Offices and the expeditious disposal of papers. The Chief Minister instructed the Deputy Commissioners to pay special attention to this and to see that there was no avoidable delay in the conduct of Government business.

The Chief Minister said that he had a surprise visit that day at 11-10 A.M. to the Taluk Office at Bangarpet and found that not even 50 per cent of the officials present and a large number of petitioners were waiting for the officials in the office. The Deputy Commissioners were instructed to pay surprise visits often and to see that punctual attendance was enforced in the several offices under their control. The Chief Minister also added that the Hon'ble Ministers would hereafter be having surprise inspections more frequently.

The following were the other points discussed:—the planting of avenue trees and the measures to be taken to see that all the important avenues of the State were properly lined with trees; the seasonal conditions and the food position and the measures taken so far for the distribution of food.

The question of dealing with the evacuee property was also disscussed and several important decisions were arrived at.

(P. N. No. 80—7-9-49—1-100).

Press Note.

Dated 8th September 1949.

With a view to stepping up food production in the State and affording opportunity to the members of the depressed classes to work on a co-operative basis, Government have, in their Order No. L. B. 2045-51—A. D. C. 15-49-2, dated 25th August 1949, sanctioned a scheme temporarily for co-operative farming and have accordingly selected two hundred acres of land in Jyothipura and Mayasandra Forest areas in Hoskote Taluk, Bangalore (Rural) District, for this purpose.

A group of about eighty adults will be employed to work on a co-operative basis and they will be paid reasonable wages from the start and also allowed a share of the profits in the end.

The scheme involves an expenditure of Rs. 6,000, which will be advanced from the Government grants set apart for the amelioratian of the condition of the depressed classes.

It is estimated that the scheme will result in a net yield of not less than 600 pallas of horsegram.

(P. N. No. 81—8-9-1949—10.101-10.200).

Press Note.

Dated 8th September 1949.

With a view to easing the situation caused by the accumulation of cloth, Government directed that cloth might be sold to consumers without the production of cloth coupons as a temporary measure till October 1949.

The Merchants' Association, Mysore, has urged the need for the extension of this concession particularly during the Dasara Exhibition. Government have issued order permitting the free sale of cloth to consumers *i.e.*, without the production of permits, throughout the State till the end of December 1949.
